QUALITY AND RELIABILITY ENGINEERING

AUTHOR INDEX FOR 2001

Albin, S.L. and F.S. Fogliatto; *A hierarchical method for evaluating products with quantitative and sensory characteristics*; December; 1081

Altınel, İ.K., S. Özekici and O. Feyzioğlu; *Dynamic component testing of a series system with redundant subsystems*; December; 1093

Arnold, J.C. and M.R. Reynolds Jr; *EWMA control charts with variable sample sizes and variable sampling intervals*; June; 511

Bárcenas, C.C. and P.M. Griffin; *Geometric tolerance verification using superquadrics*; December; 1109

Coit, D.W.; *Cold-standby redundancy optimization for nonrepairable systems*; June; 471

Disney, R.L., B. Venkateshwara Rao and J.J. Pignatiello Jr; *Uniqueness and convergence of solutions to average run length integral equations for cumulative sum and other control charts*; June; 463

Dodin, B.M. and A.A. Elimam; *Incentives and yield management in improving productivity of manufacturing facilities*; June; 449

Dohi, T., N. Kaio and S. Osaki; *Optimal periodic maintenance strategy under an intermittently used environment*; December; 1037

Duffy, J., H. Moskowitz and R. Plante; *Multivariate tolerance design using quality loss*; June; 437

Elimam, A.A. and B.M. Dodin; *Incentives and yield management in improving productivity of manufacturing facilities*; June; 449

English, J.R. and G.O. Tolley; *Economic designs of constrained EWMA and combined EWMA-$\bar{X}$ control schemes*; June; 429

Fathi, Y. and D. Palko; *A mathematical model and a heuristic procedure for the robust design problem with high-low tolerances*; December; 1121

Feyzioğlu, O., İ.K. Altınel and S. Özekici; *Dynamic component testing of a series system with redundant subsystems*; December; 1093

Fogliatto, F.S. and S.L. Albin; *A hierarchical method for evaluating products with quantitative and sensory characteristics*; December; 1081

Griffin, P.M. and C.C. Bárcenas; *Geometric tolerance verification using superquadrics*; December; 1109

Hong, S-H., H-M. Kwon, M-K. Lee and S-B. Kim; *A process monitoring procedure based on a surrogate variable for dichotomous performance variable*; December; 1129

Huang, Yeu-Shiang; *A decision model for deteriorating repairable systems*; June; 479

Jardine, A.K.S., P.H. Liu and V. Makis; *Scheduling of the optimal tool replacement times in a flexible manufacturing system*; June; 487

Kaio, N., T. Dohi and S. Osaki; *Optimal periodic maintenance strategy under an intermittently used environment*; December; 1037

Kim, K.O., V.R. Prasad and W. Kuo; *Maximization of a percentile life of a series system through component redundancy allocation*; December; 1071

Kim, S-B., H-M. Kwon, S-H. Hong and M-K. Lee; *A process monitoring procedure based on a surrogate variable for dichotomous performance variable*; December; 1129

Kuo, W., V.R. Prasad and K.O. Kim; *Maximization of a percentile life of a series system through component redundancy allocation*; December; 1071

Kwon, H-M., S-H. Hong, M-K. Lee and S-B. Kim; *A process monitoring procedure based on a surrogate variable for dichotomous performance variable*; December; 1129

Lee, M-K., H-M. Kwon, S-H. Hong and S-B. Kim; *A process monitoring procedure based on a surrogate variable for dichotomous performance variable*; December; 1129

Liu, P.H., V. Makis and A.K.S. Jardine; *Scheduling of the optimal tool replacement times in a flexible manufacturing system*; June; 487

Makis, V., P.H. Liu and A.K.S. Jardine; *Scheduling of the optimal tool replacement times in a flexible manufacturing system*; June; 487

Marcellus, R.L.; *Operating characteristics of X-bar charts with asymmetric control limits*; December; 1059

Moskowitz, H., R. Plante and J. Duffy; *Multivariate tolerance design using quality loss*; June; 437

Ng, K.Y.K. and N.G.F. Sancho; *A hybrid 'dynamic programming/depth-first search' algorithm, with an application to redundancy allocation*; December; 1047

Osaki, S., T. Dohi and N. Kaio; *Optimal periodic maintenance strategy under an intermittently used environment*; December; 1037

Özekici, S., İ.K. Altınel and O. Feyzioğlu; *Dynamic component testing of a series system with redundant subsystems*; December; 1093

Palko, D. and Y. Fathi; *A mathematical model and a heuristic procedure for the robust design problem with high-low tolerances*; December; 1121

Pignatiello Jr, J.J., B. Venkateshwara Rao and R.L. Disney; *Uniqueness and convergence of solutions to average run length integral equations for cumulative sum and other control charts*; June; 463

Plante, R.D.; *Process capability: a criterion for optimizing multiple response product and process design*; June; 497

Plante, R., H. Moskowitz and J. Duffy; *Multivariate tolerance design using quality loss*; June; 437

Prasad, V.R., W. Kuo and K.O. Kim; *Maximization of a percentile life of a series system through component redundancy allocation*; December; 1071

Reynolds Jr, M.R. and J.C. Arnold; *EWMA control charts with variable sample sizes and variable sampling intervals*; June; 511

Sancho, N.G.F. and K.Y.K. Ng; *A hybrid 'dynamic programming/depth-first search' algorithm, with an application to redundancy allocation*; December; 1047

Tolley, G.O. and J.R. English; *Economic designs of constrained EWMA and combined EWMA-$\bar{X}$ control schemes*; June; 429

Venkateshwara Rao, B., R.L. Disney and J.J. Pignatiello Jr; *Uniqueness and convergence of solutions to average run length integral equations for cumulative sum and other control charts*; June; 463

SUBJECT INDEX FOR 2001

2300

Venkateshwara Rao, B., R.L. Disney and J.J. Pignatiello Jr; *Uniqueness and convergence of solutions to average run length integral equations for cumulative sum and other control charts*; June; 463

2305

Altınel, İ.K., S. Özekici and O. Feyzioğlu; *Dynamic component testing of a series system with redundant subsystems*; December; 1093

2310

Moskowitz, H., R. Plante and J. Duffy; *Multivariate tolerance design using quality loss*; June; 437

Fathi, Y. and D. Palko; *A mathematical model and a heuristic procedure for the robust design problem with high-low tolerances*; December; 1121

Fogliatto, F.S. and S.L. Albin; *A hierarchical method for evaluating products with quantitative and sensory characteristics*; December; 1081

2320

Coit, D.W.; *Cold-standby redundancy optimization for nonrepairable systems*; June; 471

Huang, Yeu-Shiang; *A decision model for deteriorating repairable systems*; June; 479

Liu, P.H., V. Makis and A.K.S. Jardine; *Scheduling of the optimal tool replacement times in a flexible manufacturing system*; June; 487

Dohi, T., N. Kaio and S. Osaki; *Optimal periodic maintenance strategy under an intermittently used environment*; December; 1037

2325

Tolley, G.O. and J.R. English; *Economic designs of constrained EWMA and combined EWMA-$\bar{X}$ control schemes*; June; 429

Plante, R.D.; *Process capability: a criterion for optimizing multiple response product and process design*; June; 497

Marcellus, R.L.; *Operating characteristics of X-bar charts with asymmetric control limits*; December; 1059

Kwon, H-M., S-H. Hong, M-K. Lee and S-B. Kim; *A process monitoring procedure based on a surrogate variable for dichotomous performance variable*; December; 1129

Bárcenas, C.C. and P.M. Griffin; *Geometric tolerance verification using superquadrics*; December; 1109

2330

Ng, K.Y.K. and N.G.F. Sancho; *A hybrid 'dynamic programming/depth-first search' algorithm, with an application to redundancy allocation*; December; 1047

Prasad, V.R., W. Kuo and K.O. Kim; *Maximization of a percentile life of a series system through component redundancy allocation*; December; 1071

2335

Reynolds Jr, M.R. and J.C. Arnold; *EWMA control charts with variable sample sizes and variable sampling intervals*; June; 511

2345

Elimam, A.A. and B.M. Dodin; *Incentives and yield management in improving productivity of manufacturing facilities*; June; 449

GUEST REVIEWERS FOR 2001

C.A. Acosta Mejia, Instituto Technologico Autonomo de Mexico
B. Michael Adams, University of Alabama
Susan L. Albin, Rutgers University
Suraj M. Alexander, University of Louisville
Maria Almeida, Universidade Tecnica de Lisbon, Portugal
Layth C. Alwan, University of Wisconsin-Milwaukee
Tayfur Altiok, Rutgers University
Bruce Ankenman, Northwestern University
Harold Ascher, Potomac, MD
Ronald Askin, University of Arizona

Do Sun Bai, Korea Advanced Institute of Science & Technology
Julie Berube, University of Georgia
John J. Borkowski, Montana State University
Royce O. Bowden, Mississippi State University
John B. Bowles, University of South Carolina-Columbia

Ken E. Case, Oklahoma State University
Richard Cassady, Mississippi State University
Phillippe Castegliola, Ecole Des Mines De Nancy, France
Darek Ceglarek, The University of Michigan
Charles Champ, Georgia Southern University
Shing I. Chang, Kansas State University
Argon Chen, National Taiwan University
Ratna Babu Chinnam, North Dakota State University
Shaoxiang Chen, Nanyang Technical University, Singapore
Byung-Rae. Cho, Clemson University
Amanda Chou, University of Texas at San Antonio
David W. Coit, Rutgers University
Elart von Collani, Universitat Wurzburg, Germany
Michael Cole, University of Arkansas
David Covington, University of Arkansas

Chandrasekhar Das, University of Northern Iowa
Tapas K. Das, University of South Florida
Enrique Del Castillo, Pennsylvania State University

Salah E. Elmaghraby, North Carolina State University
John English, University of Arkansas
Elsayed A. Elsayed, Rutgers University
Luis Escobar, Louisiana State University

Hesham Fahmy, Rutgers University
Richard Feldman, Texas A&M University
Jack Feng, Bradley University
William G. Ferrell, Jr., Clemson University
Flavio Fogliatto, UFRGS/PPGEP, Brazil
Joe Foster, Texas A&M University
Paul Franklin, Lucent Technologies
Ernest E. Fricks, Stone & Webster

Richard J. Gerth, Ohio University
Paul Griffin, Georgia Institute of Technology
Linguo Gong, Rider University
Jerrold R. Griggs, University of South Carolina
John R. Grout, Berry College
Muge Gultekin, Household Auto Finance, CA
Kemal Gursoy, Long Island University
Melike Baykal-Gursoy, Rutgers University

Anna Soffia Hauksdottir The University of Iceland
Douglas Hawkins, University of Minnesota
A.J. Hayter, Georgia Institute of Technology
John D. Healy, Bell Communications Research
Han Hoogeveen, Eindhoven University of Technology, Netherlands

Thomas Hsiang, Universal Foods Corporation

John Jackman, Iowa State University
Peter Jackson, Cornell University
Andrew K.S. Jardine, Pricewaterhouse Cooper LLP

Kailash C. Kapur, University of Washington
J. Bert Keats, Arizona State University
Delbert Kimbler, Jr., Clemson University
William J. Kolarik, Texas Tech University
Tim Kramer, Hewlett-Packard Company
Way Kuo, Texas A&M University

Sheila Lawrence, Rutgers University
Min-Koo Lee, Inje University, Korea
Kevin Linderman, University of Minnesota
Joseph Lu, National Cheng-Kung University, Taiwan
James M. Lucas, JM Lucas & Associates
Alberto Luceno, Universidad des Cantebria, Spain
Peter Luh, University of Connecticut

Saeed Maghsoodloo, Auburn University
Christina Mastrangelo, University of Virginia
Gary S. May, Georgia Institute of Technology
Mainak Mazumdar, University of Pittsburgh
William R. McDaniel, Northwestern University
Timothy Meinert, University of Arkansas
Brian J. Melloy, Clemson University
Douglas C. Montgomery, Arizona State University
Richard C. Morey, Cornell University
D.N.P. Murthy, The University of Queensland, Australia

Joel Nachlas, Virginia Polytechnic Institute
Matoteng M. Ncube, University of West Florida
Guna Nedumaran, SAS Institute, Inc.
Barry L. Nelson, Northwestern University
Peter R. Nelson, Clemson University

O. Geoffrey Okogbaa, University of South Florida

Shahrooz Parkhideh, Nat Bounty, Inc.
Michael Peters, Middle Tennessee State University
Hoang Pham, Rutgers University
Joseph Pignatiello, Jr., FAMU-FSU College of Engineering
Stefan Pittner, Northeastern University
Robert D. Plante, Purdue University

Peihua Qiu, University of Minnesota

Gad Rabinowitz, Ben-Gurion University of the Negev, Israel
Jayant Rajgopal, University of Pittsburgh
Shivakumar Raman, University of Oklahoma
Rajeev Rastogie, Bell Laboratories
Tzvi Raz, Tel Aviv University, Israel
Marion R. Reynolds, Jr., Virginia Polytechnic Institute
Steven Rigdon, Southern Illinois University
Rhonda Right, Santa Clara University
Robert N. Rodriguez, SAS Institute
George Runger, Arizona State University

Sarah M. Ryan, University of Nebraska-Lincoln

Thomas L. Saaty, University of Pittsburgh
Frank Samaniego, University of California-Davis
Susan M. Sanchez, University of Cincinnati
Erwin M. Saniga, University of Delaware
Bhaba R. Sarkar, Louisiana State University
Tep Sastri, Texas A&M University
Gordon Savage, University of Waterloo, Canada
Paul J. Schacter, AT & T Wireless Services
Jan Shi, The University of Michigan
Douglas R. Shier, Clemson University
James Simpson, FAMU-FSU College of Engineering
Nozer D. Singpurwalla, George Washington University
Alice Smith, Auburn University
Rick So, University of California-Irvine
Refik Soyer, The George Washington University
Fred Spiring, University of Mantoba, Canada
Wolfgang Stadje, Universitat Osnabruk, Germany
Stefan Steiner, University of Waterloo, Canada
Zachary G. Stoumbos, Rutgers University
Joe H. Sullivan, Mississippi State University

Michael R. Taaffe, University of Michigan
Jen Tang, Purdue University
Kwei Tang, Louisiana State University
G. Don Taylor, University of Arkansas
William Thompson, University of Missouri
Doug Timmer, University of Texas-Pan American
James C.C. Torng, National Yunlin University of Science & Technology, Taiwan
Michael Tortorella, Lucent Technologies
Kostas P. Triantis, Northern Virginia Graduate Center
Kwok-Leung Tsui, Georgia Institute of Technology
Fugee Tsung, Hong Kong University

Cemal Unal, PPD, Morrisville, North Carolina
John Usher, University of Louisville

Stephen B. Vardeman, Iowa State University
Michael Veatch, Gordon College
Thomas Velasco, Southern Illinois University of Carbondale
Jose A. Ventura, Pennsylvania State University
J. Rene Villalobos, Arizona State University
G. Geoffrey Vining, University of Florida

Donald G. Wardell, University of Utah
Gary Wasserman, Wayne State University
Scott Webster, Syracuse University
George O. Wesolowsky, McMaster University
Seungjin Wheng, Stanford University
Gary Whicker, JB Hunt Corporation
William H. Woodall, University of Alabama

Arthur Yeh, Bowling Green State University
Steven Yourstone, University of New Mexico

Chun Zhang, FAMU-FSU College of Engineering
Ming Zuo, University of Alberta, Canada
